Split Wall

Frame Guards

Unit already installed and need a guard? Look no further.

The split wall frame allows you to place a guard with ease, post the installation of the condensing unit. You can work around pipework and electrical connections hassle-free. 500 refers to the depth of the guard. Ideal for all manufacturers of air conditioning and air source heat pumps, including Daikin, Fujitsu, Hitachi, LG, Mitsubishi, Panasonic and Toshiba.

Features

- Additional bottom and back panels are available for stand-alone/high wall options
- All bolts are allen-headed for added security
- Quick and easy to install and access for maintenance
- Split back panel makes it easy to retro fit
- Textured finish in RAL7032
